

RV SETUP CHECKLIST

 Remember to take your time

Three checks before you chock!

- 1.  Check to make sure you can reach the water & electrical connections
- 2.  Check to make sure your slides have enough room to clear obstacles
- 3.  Check to make sure the RV is level left to right
- 4. Chock your tires
- 5. Disconnect trailer from tow vehicle
- 6. Level the trailer front to back
- 7. Deploy stabilizers
- 8. Connect to the water and electrical panel
- 9.  Check inside for obstacles before operating slides
- 10. Deploy RV sides
- 11. Connect sewer hose
