

Rocky Mountain Town

QUICK GUIDE

# BOZEMAN, MT

## COINED: THE MOST LIVABLE CITY

Bozeman has big charm and is exactly the vibe you want from your Rocky Mt town in southern Montana. An hour North is its affluent sister (skiing) city - Big Sky. You will find a more curated experience here with big homes and many trails for hiking. Between the two towns, all along the highway, you will find river front camping sites with spectacular views. Most have: fire pits, picnic tables but they are first come, first serve with no hook ups.

## WHERE TO STAY WITH YOUR RV

The best camping in Bozeman is out in the wilderness. Sitting by a rushing river, looking up at the gorgeous mountains, listening to the wildlife. Go to Recreation.gov & type Bozeman to see your options. Although many things will be booked if not reserved in advance. Search for dispersed camping for the area too. If you need full hookups check out: Bozeman Hot Springs RV, Bear Canyon, or, Bozeman Trail.
