

The town to visit
when you are in Glacier N.P.

QUICK
GUIDE

WHITEFISH, MT

A NICKNAME WITHIN THE NAME

Whitefish has its roots in fishing, the railroad and logging. The train still comes into the city center and is a big part of its economy to this day. For the Whitefish visitor, it feels like a step back in time and a small vacation town that hasn't lost any of its character. Most people make this a stop while they are nearby Glacier National Park, but it can hold your attention all on its own!

WHERE TO STAY WITH YOUR RV

There is no shortage of RV parks in Glacier or Whitefish. Normally you can stay in the park, but this year you may need another plan due to closed off sections. You will find there are a plethora of choices when picking an RV park. The two best parks that provide easy access to the West Entrance are: West Glacier RV Park (complete with its own little town) and the KOA of Glacier. You can also stay in Whitefish at the KOA or Whitefish RV Park but you are putting yourself an hour from the park.

UP TO DATE HIKING ALERTS

Hiking plans for this season, in Glacier National Park, will have to remain flexible. Here is a website for you to get the latest news on the places you would like to visit.
